ANYPOINT PARTNER MANAGER

A LOW CODE SOLUTION TO MANAGE B2B PARTNER INTEGRATIONS

What is Anypoint Partner Manager?

Anypoint Partner Manager is a low-code B2B solution that accelerates partner on-boarding of both API and EDI based business transactions.

It helps IT and LoB teams rapidly develop, secure, monitor, and manage B2B integrations all through a single pane of glass.

Why Partner with AVIO Consulting?

Partnering with AVIO Consulting for your Anypoint Partner Manager needs ensures a smooth setup of the application network to support EDI activities, trading partner setup, and rigorous testing. Our expertise makes the initial complexities manageable, paving the way for flexibility, agility, and reuse.

Benefits

▪ Add a new trading partner in 1 week or less

▪ 80-90% of the work can be done by business users

▪ Close the IT delivery gap and save time and money

▪ Faster and easier to find and resolve errors
